Asst. Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

Please consider the following amendments and remarks made in response to the Office  
Action mailed

AMENDMENTS

In the claims:

*Please cancel claims 16-19.*

*Please amend the remaining claims as follows:*

1. (Amended) [Peptide] An anti-HIV peptide for the prevention or therapeutic treatment of HIV virus infection [capable of interacting] that interacts with an antibody specific for an antigen of the envelope of said virus and obtained from an HIV-positive patient belonging to the "long-term nonprogressor" group, comprising an amino acid sequence which mimics a conformational epitope of an antigen of said envelope [without, however, ] wherein the amino acids sequence does not correspond[ing] to a continuous amino acid sequence of this antigen.
